

Job Description

Job Title: Video Tech

Reports to: Technology Manager

Key Relationships: Technology Manager - Worship Tech Team – HR/Administrative Services Director – Building Maintenance Manager -

Purpose of the Role:

- The role of remote worship ministries is increasingly vital in the faith formation for many people. This is achieved through working with the technology director and team to produce the highest quality worship videos that meet industry standards for our remote community. Your role focuses on providing spiritual guidance and helping the church fulfill its mission of “helping people know, love, and share Jesus Christ.”

Key Duties and Responsibilities:

- Produce and distribute video records
 - Internet streaming
 - MCTV liaison
 - Ensure equipment is functional
 - Schedule repairs and updates
- A team player
 - Works closely with the Technology Director for upgrades and operating changes
 - Works closely with office staff to cover scheduled events, on an as-needed basis
 - Works closely with building staff on projects that affect video quality in the sanctuary and chapel
 - The required meetings (Tue and Sun Worship Tech meetings and staff)

Skills and Qualifications:

- Be a person of integrity
- Meets or exceeds deadlines
- A working knowledge of industry standards
- Willing to learn new skills and willing to teach skills to staff and volunteers
- The willingness to work within a team

Preferred Qualifications:

- A degree in Video Production
- A call to Christian ministry
- Connections to TV and radio outlets
- Experience with video equipment
